

Snježana Zrnčić

DVM, PhD is a senior scientist in Laboratory for Fish, Molluscs and Crustacean Diseases at Croatian Veterinary Institute, National reference laboratory for aquatic animal diseases. She has more than 30 years of experience in aquatic animal diseases and aquaculture. Currently she is serving as a General Secretary of the EAFP (European Association of Fish Diseases). She is involved in several EU projects: FAIMMAC (EASME/EMFF/2015/1.2.1.7/02/SI2.735915), MedAID (Horizon 2020 No.7217315) and AdriAquaNet (ERDF, Interreg Italy-Croatia). She worked as a consultant in FAO funded projects (FAO TCP/RER/3402 “Assistance to Western Balkan Countries for Improving Compliance to International Standards on Aquatic Animal Health” and FMM/RAS/298/MUL “Strengthening capacities, policies and national action plans on prudent and responsible use of antimicrobials in fisheries”).
